

Handout: How can ICT enhance the science curriculum?

- **Using information sources** such as the internet or DVDs / CD ROMs
- **Using data capture equipment** such as digital microscopes, visualizers, digital cameras, voice recorders and data logging sensors
- **Handling data** using databases and spreadsheets
- **Visualising and investigating ideas** with models, simulations and animations
- **Communicating ideas** using word processors, publishing / presentation software, apps such as Explain Everything or Book Creator and animation software
