

Ear Gongs

We could try to explain what this sounds like but you've just gotta hear it for yourself.

www.sciencemuseum.org.uk/launchpadeucators

Grab this stuff...

1
Choose a metal object and tie on one or two pieces of string like this...

2
Wrap the other end of the string(s) around your finger(s), like this...

3
Put your finger(s) in your ears!

4
Lean forward so your object hangs down, then knock it against the table.

Bong!
